Land same as last described. July 17, 1838

General description.

The largest proportion of the land in this Township is good 2^d rate, the smallest portion 3^d rate. A great deal of the land on the streams is fine rich 1st rate land, and adjacent to the streams the same.

The soil is from 6 to 8 inches deep & sandy. The timber is lofty and large, and generally stands thick on the ground.

The general surface of the country is level, and the margins of the stream and Swamp but illy defined, by banks generally. Many of the Swamps are reclaimable.

I hereby certify, that in pursuance of a contract with Robert T. Lytle, Surveyor General of the United States, for the States of Ohio, Indiana and Michigan, bearing date the 10th day of May 1838, and in strict conformity to the laws of the United States and the Instructions of the said Surveyor General, I have surveyed and subdivided into sections Township N. 22 North in Range N. 2 East of the 2^d Principal Meridian, in the State of Indiana; And I do further certify, that the foregoing are the true and original field notes of the said survey and subdivision ex-

T. 22 N., R. 2 E. 2. Mer. Ind. a.

executed as aforesaid.

Certified this 17th day of July 1838

Arthur G. Vance

Deputy Surveyor.

William Geo. Williams }
 Thomas Bush } Chainmen
 Lewis Fewell, Marker.

I certify that the foregoing transcript of
 Field Notes of the survey of Township N. 22
 North, in Range N. 2 East of the 2^d Prin-
 cipal Meridian in the State of Indiana,
 has been compared with the original on file
 in this office, and found to be correct.

Surveyor General's Office }
 Cincinnati, Nov. 12, 1844 }

William Johnston
 Sur. Genl.
